Professional Summary

Informatics Engineering graduate (GPA 3.56/4.00) with hands-on experience in web application development, database management, data administration, and computer networking. Built a full-stack web application with Laravel, PHP, and MySQL during an internship, and delivered an end-to-end AI-powered web system as a final-year project, and presented the related research at ICIC-APTIKOM 2026 (IEEE-indexed). Accurate, detail-oriented, and a fast learner, ready to contribute as an IT Staff, IT Support, Web Developer, or Data/System Administrator.

Technical Skills

- **Web Development:** HTML, CSS, JavaScript, PHP, Laravel, Bootstrap, REST-style CRUD operations
- **Databases:** MySQL, SQL, database design, data validation and cleansing
- **Networking:** Cisco Packet Tracer, routing and switching, VLAN, MikroTik (basic)
- **AI / Machine Learning:** Python, PyTorch, Hugging Face (ResNet-50, mBERT)
- **Data and Office Tools:** Microsoft Excel (VLOOKUP, XLOOKUP, SUMIF), Microsoft Word, data entry and verification
- **UI/UX Design:** Figma, wireframing, prototyping
- **Tools:** Git, GitHub

Professional Experience

Data Entry Specialist (Freelance) — Puskesmas, Tuban Regency | Aug 2026 – Sep 2026

- Entered and validated public health examination records in the Ministry of Health portal system.
- Verified the accuracy and integrity of large-scale operational data using Microsoft Excel formulas.
- Identified and corrected data anomalies and duplicates (data cleansing) to keep health facility reports accurate.

Web Developer Intern — SD Islam Nurul Ulum, Gresik | Jan 2025 – Mar 2025

- Developed a student payment management system using Laravel, PHP, MySQL, and Bootstrap.
- Implemented user authentication, payment recording, financial reporting, and receipt printing features.
- Managed the database, ran regular system testing, and fixed bugs to keep the application stable.

Projects

Multimodal Content Moderation Web Application (Final Project) | Jan 2026 – Jul 2026

- Designed and built a web application integrating ResNet-50 (image) and mBERT (text) models, achieving an F1-score of 0.9865.

- Handled the full project lifecycle: dataset collection and annotation, model training, database design, and application deployment.
- Evaluated usability with the System Usability Scale (SUS), scoring 76.02.

Personal Finance App (UI/UX Design)

- Designed the prototype and interface in Figma, focusing on monthly cash flow tracking, expense categorization, and intuitive financial charts.

KAI Access Mobile App Redesign (UI/UX Design)

- Evaluated and redesigned the interface flow in Figma, simplifying ticket booking and the main menu layout to improve navigation efficiency.

Education

Universitas 17 Agustus 1945 Surabaya | 2022 – 2026

Bachelor of Computer Science (S.Kom.), Informatics Engineering | GPA: 3.56/4.00

Certifications

- BNSP Competency Assessment, Junior Web Developer (Passed)
- TOEFL Prediction Test, Score: 537

Languages

- Indonesian (native), English (TOEFL Prediction 537)

Publications

- Comparative Analysis of Unimodal and Multimodal Deep Learning for Indonesian Body Shaming Detection — oral presentation, ICIC-APTIKOM 2026, Yogyakarta (October 2026)
